## BOY SLAYERS BID FOR LIFE IMPRISONMENT

### DARROW FIGHTS TO AVOID ROPE OR INSANE ASYLUM

LEOPOLD AND LOEB ONLY 19, TOO YOUNG TO HANG, SAID DARROWS

WITHOUT PRECEDENT TO HANG THEM AFTER PLEADING GUILTY

(By United Press) Criminal Courtroom, Chicago, July 25.—Clarence Darrow, chief defense counsel for Nathan Leopold and Richard Loeb, slayers of Robert Franks, has definitely decided to make a bid for life imprisonment for the defendants. Darrow has abandoned hope for anything less than confinement for life.

But he will fight just as desperately to keep the millionaires' sons from the insane asylum as he is fighting to save them from the rope.

Darrow told the United Press that he has cast legal jurisprudence to the winds; his sole aim is to show the youths were not wholly responsible for their crime.

"I want the court and the people to believe that we were sincere in entering a plea of guilty," Darrow said. "There has been talk about it. Everywhere there has been the idea that because these boys are sons of rich men that prodigious sums of money would be spent to defeat justice; that legal trickery would be resorted to to save the boys from punishment."

"Well, our cards are on the table. We shall attempt to show the boys were not entirely in possession of their minds for some time before, during and after the crime was committed."

"We do not want them to hang. We don't want them to be placed in an insane asylum."

"We want them to be sent to the state penitentiary, where they will have a chance to recover their normal minds. To send them to an insane asylum would be a terrible punishment. Instead of curing them the asylum would only complete their mental ruin."

"When the time comes we shall produce our alienists."

"Stripped of complicated and fanciful terminology, we hope to prove the boys were not and are not now in a normal frame of mind."

"These boys are too young to hang. They are only 19, barely more than children. It would be without precedent to hang such youngsters after they pleaded guilty."

State's Attorney Crowe, however, is determined to fight to the last for the extreme penalty. He has served notice repeatedly that he will continue nothing less than hanging. This is the reason he has refused to dispense with witnesses to build up his murder case.

Crowe is going about his task methodically, and when yesterday's session had ended he had questioned more than thirty witnesses. Step by step he has taken Chief Justice John R. Caverly along the path the defendants conceived—the idea of the murder to get a thrill, the kidnapping of Robert, the fatal blow with the tape-wrapped chisel, the stripping of the body, its hiding in a railroad culvert, the \$10,000 ransom letter sent to Jacob Franks, the father, the identification of the acid scarred body, the finding of the tell-tale spectacles, and the arrest.

Crowe will forge many more links in the chain of proof of the murder, and when his witnesses are disposed of he will still have the confessions of the youths to read. Crowe plans to delete certain phases of the confessions, at least so far as the public is concerned. He said he would have the court and attorneys read the excerpts in private. Some of the excerpts dealt with "a certain pathological incident between the boys at Charlevoix, Mich., last year." Crowe holds that a public reading of this phase would not aid the prosecution's case in any way, and, on the other hand, might bring embarrassment to the already sorely harassed parents of the defendants.

## Speculator, Not Farmer, Profits by Price Raise

### EDITOR MAGEE NOW AT LIBERTY ON \$2,500 BOND

(By United Press) Santa Fe, N. M., July 25.—Carl C. Magee, editor of the New Mexico State Tribune, who was given a jail sentence for contempt of court as a result of editorials in his paper attacking the county district court, was at liberty today on \$2,500 bond. Magee was allowed freedom by the state supreme court after Sheriff Loren Delgado refused to release Magee from jail on Governor Hinkle's pardon.

In arguments before the court yesterday San Miguel county attorneys held Magee's pardon illegal, alleging collusion between him and Governor Hinkle with the understanding that the editor would be pardoned before his case was tried.

### COULD NOT SUPPORT BABY AND FLIVVER

EXPENSES HAD TO BE CUT, ST. PAUL COUPLE ABANDONS BABY

DROVE ABOUT IN CAR, SAW BABY PICKED UP, AND THEN FLED

(By United Press) St. Paul, July 25.—A flivver and a baby would have been too much expense, so the baby was left on a doorstep.

This, police say, is the confession of Clarence and Eva Epton, 19 and 17, former residents of Walhall, N. D., held for abandoning their child the night of July 18 on the doorstep of a St. Paul home.

Buxom pretty, with short skirts and bobbed hair, the girl wife and her husband this morning sobbed out at police headquarters the tale of a mistake, an early marriage and a struggle to get along on a small salary.

The young husband has been employed at \$25 a week in a Minneapolis Piggly Wiggly store. Detective Bert Carn arrested them this morning and they are now at central police station pending Assistant Detective Captain Thomas Dahill and the county attorney regarding the filing of a charge against them.

And out at Ancker hospital a fat, cooing 10-pound baby boy is the pet of nurses, happy in his ignorance of the trouble of which he is the center. The baby was born July 5 in a Minneapolis maternity hospital. The couple told police that they talked over their difficulties and decided the meager salary could not support the baby and the flivver roadster they were paying for at the rate of \$5 a week. So on the night of the 18th they drove to St. Paul, selected the home of A. Remkey, left the baby on the doorstep, but mother love would not let the 17-year old girl leave her child to the mercy of the elements. Round and round the block they drove until they saw that the child had been taken care of. Then, before police arrived, they drove away.

Crowe is going about his task methodically, and when yesterday's session had ended he had questioned more than thirty witnesses. Step by step he has taken Chief Justice John R. Caverly along the path the defendants conceived—the idea of the murder to get a thrill, the kidnapping of Robert, the fatal blow with the tape-wrapped chisel, the stripping of the body, its hiding in a railroad culvert, the \$10,000 ransom letter sent to Jacob Franks, the father, the identification of the acid scarred body, the finding of the tell-tale spectacles, and the arrest.

### SEVEN HURT IN \$100,000 FIRE

DYNES-POHLMAN LUMBER CO. YARD DESTROYED IN INDIANAPOLIS

(By United Press) Indianapolis, July 25.—Seven persons were injured in a \$100,000 fire which destroyed the Dynes-Pohlmann Lumber Company yard here today.

The fire started in a small shed adjacent to the yard but was fanned to the stacks of lumber before it was discovered. None of the injuries were serious.

### 3 CANDIDATES MANAGE THEIR OWN CAMPAIGNS

COOLIDGE, DAVIS AND LA FOLLETTE PILOT THEIR CANDIDACIES

IN SPIKE OF NOMINAL MANAGERS AND ELABORATE ORGANIZATIONS

(By United Press) Washington, July 25.—For the first time in political history, all three leading candidates for president—Coolidge, Davis and LaFollette—are the real managers of their own campaigns.

Despite their nominal managers and elaborate organizations behind them, none of the candidates has placed his political fortunes in the hands of a single man or set of men such as presidential candidates have done in the past. As a result of this unusual situation party leaders agreed that credit success would be largely due to the winning candidate himself if his success comes from campaign strategy. By the same token the losers must take the chief blame if their campaign collapses under some tactical blunder or major policy.

That all three candidates have direct charge of their own campaign was said to be no reflection on the wisdom or ability of their managers. President Coolidge, with an unbroken string of political victories, is given credit by his friends with being a master politician, and his decision to take charge of his campaign is in keeping with his past methods.

After the democratic convention, John W. Davis found his party badly split. He was faced with the problem of selecting a campaign manager acceptable by all factions. After a week of conferences with party leaders of all elements Davis selected his friend and admirer, Clem C. Shaver, of West Virginia. But, it is pointed out, Davis is no novice in national politics, and as a result took to himself decisions on all major policies.

That Senator LaFollette is directing his own campaign occasioned no surprise in Washington. His long fight with bosses, beginning at the outset of his political career in Wisconsin has given him the reputation of being one of the most astute politicians in the country. His selection of Representative John M. Nelson, his chief in scores of political battles, as his manager to direct the details of his campaign, was regarded as natural.

### Plans to Finance Democratic Campaign

(By United Press)

Dark Harbor, Me., July 25.—Plans for financing the campaign of John W. Davis, Democratic nominee for the presidency, probably will be discussed at a conference at the Davis summer retreat this afternoon. Thomas L. Chadbourne, prominent New York business man, and one of the principal backers of W. G. McDoo in the latter's effort to obtain the Democratic nomination, will arrive this afternoon and matters of finance probably will be taken up. Chadbourne comes here from Bar Harbor in a private yacht. He telegraphed Davis late yesterday asking for the appointment.

### NORTON TO SUCCEED BRYAN IN NEBRASKA AS HEAD STATE TICKET

(By United Press) Lincoln, Neb., July 25.—John L. Norton, of Polk, Neb., was selected as the Democratic candidate for governor on the eleventh ballot taken with the state central committee here last night. Norton succeeds Governor Charles W. Bryan, Democratic vice presidential nominee, as standard-bearer of the party's state ticket.

### WITH PRESIDENTIAL CANDIDATES TODAY

President Coolidge—The president today continued his work on the draft of his notification speech. A committee meeting and a conference with Washington newspaper men was scheduled.

Senator LaFollette—With ten members of the supreme council of eleven of the independent movement selected, Senator LaFollette spent the day in his office at the capitol, working out details of policy for the campaign. These will be submitted to the committee at a meeting today.

John W. Davis—Expects to discuss plans for financing the democratic campaign in a conference with Thomas L. Chadbourne of New York in the Davis retreat at Bar Harbor. Chadbourne was one of W. G. McDoo's main supporters.

### ARRESTED AFTER CHASE OF YEAR

ALLEGED N. D. FORGER IS TAKEN IN CHICAGO

St. Paul, July 25.—Martin J. Rodlin, wanted in St. Paul for first degree forgery, is under arrest in Chicago after a chase lasting more than a year.

News of his arrest was received last night by Captain of Detectives Herman Vall and deputy sheriffs were dispatched to bring him back from Chicago.

He is alleged to have obtained between \$7,500 and \$8,000 on notes to which he forged the name of his father, Ed Rodlin, a Nome, N. D., farmer. Rodlin, according to word from Chicago, will not fight extradition. The chase after him started in May, 1923, when the forgeries, made in November, 1922, were discovered. He disappeared from the Buckingham hotel, Minneapolis, where he had been living, shortly before the forgeries were discovered. Police chased him through several western and northwestern states. His capture, police say, resulted from his fondness for women and the gay life. While living at the Buckingham, officers declare, he entertained lavishly and continued that practice on his travels. Rodlin and his wife are divorced. They had five children, who are now living with their grandparents.

### Labor Resolutions Adopted in Faribault

The State Federation of Labor which was in session in Faribault, adopted these resolutions:

Urging an increase in legislators' pay from \$1,000 to \$2,000.

Demanding that bus lines be placed under the regulation of the State Railroad and Warehouse commission.

Asking for one day's rest in seven for police and fire fighters in cities of the first class.

For a teachers' tenure bill, providing for hearings before dismissal or demotion.

For one ballot at primary elections it being explained that the voter probably would be obliged to stay in one column.

A demand for pensions for unemployed was referred to the executive committee.

The convention adjourned after selecting Austin as the next convention, and fixing the date as the third Monday in September, 1925.

### COP CALLED ON TO ARREST OWN BROTHER

St. Paul, July 25.—Patrolman Joseph Falkey, Rondo station, yesterday arrested his brother, Tony Falkey.

Arrest was on a warrant charging driving away after an accident. The complaint filed alleged that Tony struck a car at Como park July 18 and damaged the fender, but failed to stop.

He pleaded not guilty in municipal court today and hearing was set down for July 31.

### CROP FORECAST PRESAGES HIGH FARM PRICES

EXPERTS CONCLUDE THAT NO SURPLUS PRODUCTION PROBABLE

CONFERENCE SHOWS FAVORABLE HARVEST IN FOUR STATES

St. Paul, July 25.—Present farm prices not only will be maintained but they will go higher.

There will be little or no surplus production this year.

Crop reports all through the northwest are the most favorable they have been for years.

In these words E. G. Quamme, president of the Federal Land bank, summarized the two-day conference of the district council members of the state federations of National Farm Loan associations.

Crop experts representing Minnesota, Michigan, Wisconsin and North Dakota made authentic reports of crop conditions in their respective territories to enable the Land bank to make a definite analysis of the agricultural situation in the northwest.

This is the first actual survey of crop conditions made in this territory and is considered by authorities as the most accurate summary available.

The following is the summary made by Mr. Quamme this morning following the completion of the conference which has been in session on the roof garden of the Saint Paul hotel:

Wheat—Acreage is less than last year. Condition is good to excellent. Danger of black rust is slight.

Corn—The corn acreage is about normal.

Barley—Barley acreage increased in Minnesota and North Dakota.

Oats—Acreage normal. Crop well advanced.

Potatoes—Acreage reduced. Crop promises a fair yield.

Rye—Acreage reduced.

Beans—Most of the beans are grown in Michigan. Crop is backward on account of unfavorable weather.

Peas—The greatest production is in Wisconsin and Upper Michigan. The crop is excellent.

Flax—Acreage considerably increased. Crop in excellent condition.

Hay—The hay crop is the most valuable crop in this district, especially so in Minnesota and Wisconsin—is above the average.

The apple crop is reported short everywhere and there is no question now but what there will be a shortage of apples. Berries and other fruits reported abundant.

Truck gardens are in excellent condition.

The reports show that the dairy industry is being increased and extended. This is particularly true in Wisconsin, Minnesota and North Dakota. Beef cattle production is on the increase.

The pig crop is reported short, except in the northwestern part of Minnesota.

The sheep industry is in a thriving condition. Good profits have been made the past two years.

Poultry income in North Dakota will be greatly reduced by the wet spring and cold weather. The turkey "crop" will be reduced 50 per cent. This applies in northwestern Minnesota.

### MAJ. MacLAREN AT KAMCHATKA PENINSULA, SIBERIA

(By United Press) Tokyo, July 25.—Major A. Stewart MacLaren, British world flier, arrived today at Petropavlovsk in the Kamchatka Peninsula, Siberia, on his flight across the Pacific from Japan to Alaska.

### FARM HAND SHOOTS VICTIM 5 TIMES IN BACK

(By United Press) Minneapolis, July 25.—Shot in the back five times because of a fancied insult, Woodward M. Morrison, 32, was still alive but in a critical condition today.

William Olson, Pine county farm hand, walked up behind Morrison and felled him with one shot. Then, standing over him, he pumped four bullets into him while a late loop crowd looked on.

Olson walked across the street and told two witnesses of the remark he considered an insult and accompanied them to police headquarters.

Here he made a confession. Morrison was taken to General hospital.

### COUNTESS ELSA EMPLOYED AS A LEATHER CUTTER

SWEDISH KING'S GRANDDAUGHTER SEEKS SOCIOLOGICAL TRUTHS

DESIRES TO KNOW HOW OTHER HALF LIVES IN CHICAGO

(By United Press) Chicago, July 25.—Countess Elsa, granddaughter of King Gustav V of Sweden, always wanted to know how the other half lived.

Overcome by her eagerness for adventure, the countess, on arrival here a few weeks ago, deserted friends among the four hundred, including Mrs. Rockefeller-McCormick, and secured employment in a leather factory, receiving a salary of \$18 a week.

The countess, of royal blood, sits opposite a leather cutter guiding long strips of leather into a cutting machine. For variety she stamps a number on each side. In the evening she goes home to a simple, little room not far from the factory. Countess Elsa will continue her experiment until July 30, according to intimate friends. Her father, Prince Oscar, is president of the Y. M. C. A. of Sweden.

### ITALIAN FLIER TAKES OFF FROM PISA TO PARIS

(By United Press)

Pisa, Italy, July 25.—Lieut. Locatelli, of the Italian air service, took off today from Pisa and headed northward for Paris, the first leg of a flight to New York. The Italian plans to fly on to London and Brough and join the American world flight there, accompanying them across the Atlantic. An enthusiastic crowd cheered his departure, which signifies Italy's entrance into the world contest for long distance flight supremacy.

### SHEANDOAH ALOFT 24 HOURS

STORMS DELAYED LANDING OF MIGHTY DIRIGIBLE

(By United Press)

Lakehurst, N. J., July 25.—The navy dirigible Shenandoah was landed safely at the air field here at 8:30 today after having remained aloft more than 24 hours.

The big air cruiser made a 500-mile flight over Scranton and Binghamton yesterday but was unable to land when she reached her home station because of the unfavorable weather. She cruised six hours above the air field before finally being brought down and got under control of the landing crew.

### PRICES ARE UP, FARMER HAS NOTHING TO SELL

EVEN IF HE HAD GRAIN TO SELL, COULD MAKE NO MONEY, STATED

FARMER DEMANDS EQUALITY WITH LABOR, INDUSTRY, TRANSPORTATION

(By United Press)

Wheaton, Minn., July 25.—The speculator and not the farmer is obtaining the profits from the present livestock and grain markets.

Now that prices are up farmers have nothing to sell.

So far as agricultural relief is concerned, the present situation means nothing to the farmer but much to the dealer.

This comes from F. W. Murphy, chairman of the executive board of the American Council of Agriculture, who speaks as an authority for thousands of producers.

"The farmer is making absolutely nothing out of the present market," Murphy told the United Press.

"Even if he had grain to sell he could make no profit on the market today, for it costs \$1.75 to produce a bushel of wheat, 60 cents to produce a bushel of oats and \$11 a hundred to raise hogs for the market."

"On the first of July when prices started upward the average farmer had not more than 10 per cent of last year's crop in storage. This he needs for feeding until the new crop is harvested and what he does not feed must be saved for seed until this year's crop is in and he is assured of seed for the next year."

"On today's market the purchasing power of the farmer is only 70 per cent of what it was in 1913. The farmer's purchasing power depends upon prices at the primary market and not at the terminal market."

"The farmer has to pay the freight to the terminal market and he has to pay the freight from the terminal market to the farm on what he buys. Freight rates are twice as high as they were in 1913."

"There is a good crop prospect in the Northwest, but conditions are such elsewhere that there will be a shortage of between 300,000,000 and 400,000,000 bushels of wheat. There is a carry-over from last year of less than 100,000,000 bushels and on this basis the present market price for wheat should be at least \$2.00 in Minneapolis. The question is will the price hold up until they have harvested the 1924 crop."

"The present system has made an economic slave of the farmer and he is being forced to sell on the basis of a world market while he buys on the basis of a domestic market, largely manipulated by speculators."

"The farmer demands that he be placed on equality with labor, industry and transportation, and the first step must be adoption of the McNary-Haugen bill. We are going to back candidates who are for it and fight those who are against it."

### TOOK FATAL DIVE; LANDED IN MUD, WEEDS

Minneapolis, July 25.—Gerald Dietrich failed to come up when he dived from a spring board at Crystal Lake yesterday afternoon. Companions found him entangled in mud and weeds, but he was still alive when brought ashore. He died later at General hospital.

### RIVER STEAMER SINKS IN STORM ON MISSISSIPPI

New Orleans, July 25.—Two men were killed and the river steamer Climax sunk in the Mississippi river here today when a wind storm swept the river. The wind brought relief from the hottest day in nine years yesterday which sent the mercury to the 100 degree mark here.

St. Paul, July 25.—Patrolman Joseph Falkey, Rondo station, yesterday arrested his brother, Tony Falkey.

Arrest was on a warrant charging driving away after an accident.

The complaint filed alleged that Tony struck a car at Como park July 18 and damaged the fender, but failed to stop.

He pleaded not guilty in municipal court today and hearing was set down for July 31.

CROP FORECAST  
PRESAGES HIGH  
FARM PRICESEXPERTS CONCLUDE THAT NO  
SURPLUS PRODUCTION  
PROBABLECONFERENCE SHOWS FAVOR-  
ABLE HARVEST IN FOUR  
STATES

St. Paul, July 25.—Present farm prices not only will be maintained but they will go higher.

There will be little or no surplus production this year.

Crop reports all through the northwest are the most favorable they have been for years.

In these words E. G. Quamme, president of the Federal Land bank, summarized the two-day conference of the district council members of the state federations of National Farm Loan associations.

Crop experts representing Minnesota, Michigan, Wisconsin and North Dakota made authentic reports of crop conditions in their respective territories to enable the Land bank to make a definite analysis of the agricultural situation in the northwest.

This is the first actual survey of crop conditions made in this territory and is considered by authorities as the most accurate summary available.

The following is the summary made by Mr. Quamme this morning following the completion of the conference which has been in session on the roof garden of the Saint Paul hotel:

Wheat—Acreage is less than last year. Condition is good to excellent. Danger of black rust is slight.

Corn—The corn acreage is about normal.

Barley—Barley acreage increased in Minnesota and North Dakota.

Oats—Acreage normal. Crop well advanced.

Potatoes—Acreage reduced. Crop promises a fair yield.

Rye—Acreage reduced.

Beans—Most of the beans are grown in Michigan. Crop is backward on account of unfavorable weather.

Peas—The greatest production is in Wisconsin and Upper Michigan. The crop is excellent.

Flax—Acreage considerably increased. Crop in excellent condition.

Hay—The hay crop is the most valuable crop in this district, especially so in Minnesota and Wisconsin—is above the average.

The apple crop is reported short everywhere and there is no question now but what there will be a shortage of apples. Berries and other fruits reported abundant.

Truck gardens are in excellent condition.

The reports show that the dairy industry is being increased and extended. This is particularly true in Wisconsin, Minnesota and North Dakota. Beef cattle production is on the increase.

The pig crop is reported short, except in the northwestern part of Minnesota.

The sheep industry is in a thriving condition. Good profits have been made the past two years.

Poultry income in North Dakota will be greatly reduced by the wet spring and cold weather. The turkey "crop" will be reduced 50 per cent. This applies in northwestern Minnesota.

Tokio, July 25.—Major A. Stewart MacLaren, British world flier, arrived today at Petropavlovsk in the Kamchatkan Peninsula, Siberia, on his flight across the Pacific from Japan to Alaska.FARM HAND  
SHOOTS VICTIM  
5 TIMES IN BACK(By United Press)  
Minneapolis, July 25.—Shot in the back five times because of a fancied insult, Woodward M. Morrison, 32, was still alive but in a critical condition today.

William Olson, Pine county farm hand, walked up behind Morrison and felled him with one shot. Then, standing over him, he pumped four bullets into him while a late loop crowd looked on.

Olson walked across the street and told two witnesses of the remark he considered an insult and accompanied them to police headquarters.

Here he made a confession. Morrison was taken to General hospital.

COUNTESS ELSA  
EMPLOYED AS A  
LEATHER CUTTERSWEDISH KING'S GRANDDAUGH-  
TER SEEKS SOCIOLOGICAL  
TRUTHSDESIRES TO KNOW HOW OTHER  
HALF LIVES IN CHI-  
CAGO(By United Press)  
Chicago, July 25.—Countess Elsa, granddaughter of King Gustav V of Sweden, always wanted to know how the other half lived.

Overcome by her eagerness for adventure, the countess, on arrival here a few weeks ago, deserted friends among the four hundred, including Mrs. Rockefeller-McCormick, and secured employment in a leather factory, receiving a salary of \$18 a week.

The countess, of royal blood, sits opposite a leather cutter guiding long strips of leather into a cutting machine. For variety she stamps a number on each side. In the evening she goes home to a simple, little room not far from the factory. Countess Elsa will continue her experiment until July 30, according to intimate friends. Her father, Prince Oscar, is president of the Y. M. C. A. of Sweden.

ITALIAN FLIER  
TAKES OFF FROM  
PISA TO PARIS(By United Press)  
Pisa, Italy, July 25.—Lieut. Locatelli, of the Italian air service, took off today from Pisa and headed northward for Paris, the first leg of a flight to New York. The Italian plans to fly on to London and Brough and join the American world flight there, accompanying them across the Atlantic. An enthusiastic crowd cheered his departure, which signifies Italy's entrance into the world contest for long distance flight supremacy.SHENANDOAH  
ALOFT 24 HOURSSTORMS DELAYED LANDING  
OF MIGHTY  
DIRIGIBLE(By United Press)  
Lakehurst, N. J., July 25.—The navy dirigible Shenandoah was landed safely at the air field here at 8:30 today after having remained aloft more than 24 hours.

The big air cruiser made a 500-mile flight over Scranton and Binghamton yesterday but was unable to land when she reached her home station because of the unfavorable weather. She cruised six hours above the air field before finally being brought down and got under control of the landing crew.

PRICES ARE UP,  
FARMER HAS  
NOTHING TO SELLEVEN IF HE HAD GRAIN TO SELL,  
COULD MAKE NO MONEY,  
STATEDFARMER DEMANDS EQUALITY  
WITH LABOR, INDUSTRY,  
TRANSPORTATION(By United Press)  
Wheaton, Minn., July 25.—The speculator and not the farmer is obtaining the profits from the present livestock and grain markets. Now that prices are up farmers have nothing to sell.

So far as agricultural relief is concerned, the present situation means nothing to the farmer but much to the dealer.

This comes from F. W. Murphy, chairman of the executive board of the American Council of Agriculture, who speaks as an authority for thousands of producers.

"The farmer is making absolutely nothing out of the present market," Murphy told the United Press.

"Even if he had grain to sell he could make no profit on the market today, for it costs \$1.75 to produce a bushel of wheat, 60 cents to produce a bushel of oats and \$1.10 a hundred to raise hogs for the market."

"On the first of July when prices started upward the average farmer had not more than 10 per cent of last year's crop in storage. This he needs for feeding until the new crop is harvested and what he does not feed must be saved for seed until this year's crop is in and he is assured of seed for the next year."

"On today's market the purchasing power of the farmer is only 70 per cent of what it was in 1913. The farmer's purchasing power depends upon prices at the primary market and not at the terminal market."

"The farmer has to pay the freight to the terminal market and he has to pay the freight from the terminal market to the farm on what he buys. Freight rates are twice as high as they were in 1913."

"There is a good crop prospect in the Northwest, but conditions are such elsewhere that there will be a shortage of between 300,000,000 and 400,000,000 bushels of wheat. There is a carry-over from last year of less than 100,000,000 bushels and on this basis the present market price for wheat should be at least \$2.00 in Minneapolis. The question is will the price hold up until they have harvested the 1924 crop."

"The present system has made an economic slave of the farmer and he is being forced to sell on the basis of a world market while he buys on the basis of a domestic market, largely manipulated by speculators."

"The farmer demands that he be placed on equality with labor, industry and transportation, and the first step must be adoption of the McNary-Haugen bill. We are going to back candidates who are for it and fight those who are against it."

TOOK FATAL  
DIVE; LANDED  
IN MUD, WEEDS

Minneapolis, July 25.—Gerald Dietrich failed to come up when he dived from a spring board at Crystal Lake yesterday afternoon. Companions found him entangled in mud and weeds, but he was still alive when brought ashore. He died later at General hospital.

RIVER STEAMER  
SINKS IN STORM  
ON MISSISSIPPI

New Orleans, July 25.—Two men were killed and the river steamer Climax sunk in the Mississippi river here today when a wind storm swept the river.

The wind brought relief from the hottest day in nine years yesterday which sent the mercury to the 100 degree mark here.

## JOINT PICNIC OF MASONIC LODGES

Little Falls Bodies Invite Brainerd  
Masons and Eastern Stars to Pic-  
nic at Cinosam Club

DATE IS SUNDAY, JULY 27

Invitation Has Also Been Extended  
Staples, According to  
Notices Sent

William E. Anderson, master of  
Aurora Lodge, No. 106, A. F. & A.  
M., has received a communication  
from the Masonic lodge at Little  
Falls, stating that the down-river  
Masons with the Eastern Star will  
hold a joint picnic on Sunday, July  
27th, at Cinosam club on Gull lake,  
and invites Brainerd members of  
both orders to join them.

The letter states that the trip to  
Cinosam will be made by automobile,  
each family taking basket lunches.  
Brainerd picnicers are asked to fol-  
low the same arrangements.

Mr. Anderson advises that the  
Brainerd lodge is planning an outing  
for a later date, but suggests that  
as many as can do so, accept the  
kind invitation of the Little Falls  
lodge and attend the picnic on Sun-  
day.

Cinosam club appreciates the co-  
operation of the Little Falls Masons  
in selecting its site for the picnic,  
thus furthering the purposes for  
which the club is intended. George  
Russell is now in charge of the club  
house and will be in a position to  
serve the guests and extend every  
courtesy of the club. Those who  
prefer to get their meals at the club  
rather than to prepare a basket  
lunch may do so by getting in touch  
with Mr. Russell and making ar-  
rangements before the day of the pic-  
nic.

The Little Falls Transcript carries  
the following notice of the pic-  
nic:

Members of the Masonic and East-  
ern Star lodges of the city will meet  
at the lodge hall at 8 o'clock Sunday  
morning and go to Cinosam club, 10  
miles north of Brainerd, for the  
lodges' annual picnic. Transportation  
will be provided for those who do not  
have automobiles. Each family will  
take its own basket lunch and the  
committee in charge will arrange for  
coffee, ice cream and lemonade.

Members of the lodges at Brainerd  
and Staples have also been invited to  
attend the picnic. Cinosam club is  
a Masonic club on the shores of Long  
and Gull lakes.

### FLOWER DESIGN FROCK BRILLIANTLY COLORED WORN AT PARIS RACES

Dazzling colors of every hue are  
all the rage in Paris. At the  
Auteuil races recently mannikins  
were seen in brilliant frocks of red  
and yellow or similar colors.  
Flower designs predominate, as  
shown in the model pictured above.  
The parasol matches the frock.

#### Two Men and Girl Trapped in Re- markable Fox Picture

Along came Eve. Then the trou-  
ble began. Two friends rushed head-  
long into danger. One double-cross-  
ed and won temporary respite. The  
other bided his time and then dealt  
justice where justice was due. The  
girl, loved by them both, was with  
them when they waited in the cabin

for the return of a rancher with \$20,-  
000. And as they waited, the aval-  
anche roared down the mountainside.  
There they crouched, two men and a

#### A Society Scandal

Never in the memory of New York  
society has one of its members had  
her reputation attacked so frankly  
and vehemently as was that of Mar-  
jorie Colbert by Daniel Farr, attor-  
ney for Hector Colbert, who is suing  
the very pretty and allegedly very  
indiscreet Marjorie for divorce. Nev-  
er have even the little scandal publi-  
cations, which exist principally for  
the purpose of blackmailing society,  
ever dared intimate the, to say the  
least, unconventional actions of

which Farr publicly accused Mrs.  
Colbert in summing up for the plain-  
tiff, her husband. The case is ex-  
pected to go to the jury tomorrow  
afternoon.

But why tell you the whole story  
and spoil it for you? If you really  
wish to know how Marjorie Colbert  
got into this terrible predicament  
and the amazing thing that happen-  
ed after the jury's verdict, see Gloria  
Swanson as "Marjorie Colbert" in  
"A Society Scandal" showing at the  
New Park Saturday and Sunday.

Antonio Moreno played a dual role

in the making of "Tiger Love," but  
on the screen he is seen in only one  
of the two roles. He is featured with  
Estelle Taylor, and he also acted as  
technical adviser to George Melford,  
who produced the picture for Para-  
mount.

Although Moreno has been one of  
the foremost screen figures for sev-  
eral years, his role in "Tiger Love"  
is the first modern Spanish part he  
has portrayed. "The Spanish Danc-

er," in which he was featured with  
Pola Negri, was a story of Spain  
three hundred years ago. "Tiger  
Love" portrays Spain as it was with-  
in the memory of both Moreno and  
his parents.

His son was a graduate of a finan-

in New York on other business and he  
dropped into a bucketshop a few  
months ago to see about getting the  
young man a position.

"I think he could write those mar-  
ket letters that you mail me," said  
the father rather doubtfully, after ex-  
plaining the scope of the young man's  
accomplishments.

"Yes?" inquired the office manager  
hopefully.

Further encouraged, the father con-  
tinued: "I'm sure he could. There's  
just one thing you'd have to watch  
him for. He's likely to change his  
mind every few minutes."

"Every few minutes?" exclaimed the  
office manager. "An invaluable man!

#### "Platonic Year"

The term "platonic year" is used in  
astronomy to denote the period of time  
required for the equinoxes to com-  
plete their revolution. The duration  
of this period is estimated at about  
26,000 years, at the expiration of  
which time the various stars and con-  
stellations occupy the same positions,  
relative to the equinoxes, that they  
did at the beginning. Tycho Brahe  
computed the length of the platonic  
year at 25,816 years; Riccioli at 25,-  
920 years. It is also called the great  
year.

## Red Crown

The High-Grade Gasoline

Means Your Money's  
Worth of Mileage

TRUE gasoline economy lies in mile-  
age—providing other good fuel  
qualities are not sacrificed.

Comparative road tests by users and by  
manufacturers of automobiles, prove that  
Red Crown yields more and better mileage  
than any other gasoline of its kind. In addi-  
tion to extra mileage, Red Crown gives flexi-  
bility and efficient performance at all times.

To quote from a letter recently received  
—"Red Crown, used by us for the last four  
years, has given us smooth acceleration,  
more mileage and power, and does not thin  
out the oil in the crank-case because it  
burns up clean. Our carburetors do not  
have to be adjusted because Red Crown  
is always uniform in quality, everywhere."

Red Crown effects other economies. It  
keeps your engine running sweet and  
clean. It reduces overhauling and cleaning  
bills, and best of all it provides that de-  
pendability of performance which is so  
agreeable to all motorists.

Use Red Crown this summer. It will  
give you more for your money and more  
days of service from your car.

## WHAT 10,000 LAKES ASSOCIATION IS DOING

THE Ten Thousand Lakes of Minnesota Association would be fulfilling only part of its purpose if it were to limit its activities to inviting tourists to the state, letting them shift for themselves on their arrival, says the monthly bulletin of the association issued in July. The bulletin is interesting reading for it gives an outline of the service fostered.

The association, says the bulletin, maintains a complete information bureau and service department at its headquarters. The purpose of this bureau is two-fold; first, to give service to tourists on roads, routes, lakes, etc., and to help them plan their vacation. Second, to introduce the tourists to specific resorts or localities through the racks of booklets kept at headquarters. These are consulted by tourists who have not previously determined their final destination in the state.

All tourists who come to Minnesota do not, of course, stop at the association headquarters, but last year nearly 10,000 of them did. The association, therefore, gave personal service to that many. It told them about the roads, it gave them information on fishing, it helped them plan their vacations, and it acquainted them with Minnesota resorts and vacation centers.

The association is intended as a clearing house for Outdoor Minnesota not only in respect to getting people into the state, through its own efforts, but in respect to correlating the efforts of others. Publicity aid is extended in the way of preparation of booklets and news articles are sent out. The association this year offered its two show windows to various communities for display purposes.

The basic idea behind this sort of service is that of cooperation, cumulative effort. Only in this way, it is claimed, can those interested in the tourist traffic present a strong, effective plea to the American tourist to come to Minnesota.

The bulletin also carries an interesting announcement regarding Minnesota's first circle tour. White's Tours, Curtis Hotel, give this itinerary of a personally conducted two-week tour of northern Minnesota by motor bus. The route covers about 800 miles starting from Minneapolis, then to Stillwater, and from there up Highway No. 1 to Duluth; over the Vermilion to Eveleth, to Virginia, along the Iron Range to Grand Rapids; through the Minnesota National Forest; through Itasca State Park to Walker; to Brainerd, Nisswa, Onamia, St. Cloud, and return to Minneapolis.

## MILLER HUGGINS MAY QUIT

FROM New York comes the report that Miller Huggins may quit the Yankees. Huggins is reported as saying that 1925 is his last season, as a major league manager.

The Yankee machine needs bolstering up in places, according to the report of Huggins. It needs new blood, its pitching staff must be rejuvenated, it needs a new man on short. The team is ageing, according to the pessimistic report given out.

But Huggins is loyal to the end when he says: "It is going to be a tough battle to win this year. If my club goes over, the great strain isn't going to help the condition of the veterans, particularly the pitchers."

"The Yankees are liable to be staggering at the close of the present race. I don't want to quit a club when it's groggy and on the ropes, otherwise it would be curtains for me at the finish of 1924."

The Dispatch continues to make the point that the play of the Yankees is not off color, but that the whole American League is playing exceptionally good ball and that the Yankees are facing real competition. They have to fight the whole nine innings to win any game these days.

## ANTI-WAR RESOLUTION DEFEATED

WHEN an anti-war resolution which made the State Federation of Labor say that it "would refuse to bear arms in behalf of any capitalistic government" was introduced at the Faribault meeting, it provoked a lot of discussion and was eventually voted down.

Secretary Lawson of the federation took exception to the word capitalistic, and said: "If this country is attacked, I don't care if it is capitalistic or not. I will defend it. It's mine." At the close of the debate the State Federation went on record as an American institution, ready to defend America in war. We wonder how any American institution could act otherwise.

THE wealth of the United States is reported by the department of commerce to be 320 billions of dollars, an increase of 72 per cent over 10 years ago, when the wealth of the country was estimated at a mere paltry amount of \$189 billions. This report may be and probably is true, but the impecunious newspaper man has no knowledge of it other than the newspaper report—and is happy at that.

WEEK end excursion rates are being offered by the Northern Pacific at the Twin Cities to Duluth and Superior and return. The lake country should also receive the benefit of excursion rates, thus bringing more tourists to this section.

It was a dramatic moment in the 11 inning game between the Detroit Tigers and the Yankees when Babe Ruth smashed Dauss' second pitch into the right field bleachers for a home run and won the game and stopped Detroit's winning streak.

CHICAGO has an unenviable murder record. According to the Chicago crime commission there has been a murder a day for June and 177 since the first day of the year. According to charts made, the trend in murder is upward.

No matter what you may think of Carpentier, you must at least give him credit for courage. He is no more afraid of a ring enemy than he was of the foe on French soil.

A GAS war which may reduce gasoline costs to 10 cents a gallon is forecast at St. Cloud. Prices at present are 14 cents and 15 cents.

THE Federal Trade Commission has knocked the "Plus" out of "Pittsburgh Plus."

## Heroic Struggle for Education He Coveted

The story is told of Kumba, a full-blooded African of the Ndon tribe, who has progressed from absolute illiteracy to a Columbia university degree. The first printing that he ever saw was on a pack of playing cards that came from the coast, and by studying these he taught himself the figures from one to ten. Later he went South to work, and an American missionary there who taught native boys in spite of the opposition of the Portuguese, whose policy is to keep the people ignorant, took him into his home as a house boy.

There the idea of that cultivated missionary, and especially his wife, going to live in that fever-stricken area for the sake of the black boys, gave him a new vision. He knew they must have some secret that made them different from all other white people he had ever seen.

When the American missionary left for home, he told his boys of a mission in Rhodesia, and Kumba walked 250 miles to reach there. His capacity and ambition for more education led the missionary to secure work for the boy by which he earned enough to go to Hampton Institute, Virginia.

Earning his living all the time, he took a course of carpentry and then went to Columbia, where he secured the coveted education. His whole ideal in seeking this education has been to go back and develop his own people, but not necessarily on western lines.

## World's Rulers Who Were Labeled "Great"

Lord Bryce, in an essay on "Great Men and Greatness," gives a list of 14 names to which the adjective great "is invariably, or at least, usually attached by the world at large." National appreciation runs on more generous lines.

Sp-in alone has labeled four of her kings "the great," while France pays the same tribute to as many as six sovereigns, says the Detroit News. Russia, Germany, Austria, Denmark, Sweden, Portugal and even Hawaii have attached the adjectives to one or other of their rulers. Ethelred the Unready, king of England, seems to have been the only monarch branded with this adjective.

Some royal epithets refer merely to physical peculiarities, like William Rufus, and the large group of plump monarchs known to posterity as "the fat." Charles the Bold, Pepin the Short, and Olaf the Hungry, are also of this company.

Others have a warlike connotation: Brave, valiant, victorious, hardy, strong, all appear in the list; also terrible, though Ivan of that memory was not so formidable to his foes as to his fellow countrymen. Sulyman I was "The Magnificent," John II (of Portugal) "The Perfect," Louis V "The Well Beloved," and Peter IV (of Aragon), "The Ceremonious." The names of the monarchs acclaimed "wise," "just" or "great" would fill a large space.

## Tell Girls

And women what I do for you  
By Edna Wallace Hopper

My office sends me countless letters, which thank me for new beauty and new youth. Please don't do that. Just tell to other girls and women what you've found.

I am simply passing on to others what great scientists gave me. The help that made me a famous beauty, then kept my youth and beauty to "my grand old age."

Those helps number 52, but I have had them combined in four preparations. When you use any one of them you apply quite a number of the best beauty helps in existence.

One is a cold cream which I call my Youth Cream. It combines products of both lemon and strawberry. Also all the best that science knows to foster, feed and protect the skin. I use it as a night cream, also day-times as a powder base. Never is my skin without it. I have never heard of a cream which brings anything like its results.

Now I am placing my Youth Cream—just as I use it—at every woman's call. All druggists and toilet counters supply it at 60c per jar. Also in 35c tubes. Just ask for Edna Wallace Hopper's Youth Cream. I promise you that as long as you live you'll be very glad you know it, and I shall be glad for you.

A red and green flower that may be seen to crawl along the ground for a distance of 10 feet, blooming for two weeks and turning to a pale yellow before it dies, has been grown by James Cutshaw, an Ely (Eng.) gardener. Moonlight is said to be particularly favorable to the growth of the flower.

## Two Ways To Build a Car

The Hupmobile Quality-Proof exhibit shows you two ways of building a motor car.

You don't have to be an expert on fine motor car practice to understand Hupmobile Quality-Proof.

Every part is labeled. Its material is given in plain English.

The lesser practice is also told. You can see it all for yourself. Here is the kind of proof you are justified in demanding from any car.

Hupmobile Quality-Proof shows you not only fine material. It shows you fine engineering design and fine manufacturing—as fine as can be done by trained mechanics and modern precision machinery.

Hupmobile owners could tell you how much these things mean in satisfaction—in saving them money and time—in making their Hupmobile pay as no other car ever before paid them.

Come in soon—and learn how a motor car *must* be built to give you the satisfaction every motorist desires.

## NEW BRAINS

NEEDED, NOT  
NEW FACESTHIS SEEMS TO BE THE DEMAND  
NOW IN THE  
MOVIESTHE MOVIE SHEIK, OVERDONE,  
IS REPORTED  
DEAD

(By United Press)  
Hollywood, July 25.—Speak a few kind words in memory of the dear departed—the movie sheik is dead! At least such is the declaration of those close in touch with the evolutionary activities in studio-land—who have an ear to the ground, or the radio, or whatever other sources of film players' gossip there are available.

Without the aid of stacomb, tanned skin or burning brown eyes, the plain type of American manhood will prevail in the fall styles of movie heroes.

The slick-haired, foreign-looking heroes are in the descendant, many critics believe. The demand among Hollywood producers picturizing fall and winter movie plots is for the plain type of American. The Conway Tearles, the Thomas Meighans, the Pat O'Malleys and the Milton Sills are the boys now signing contracts for the big parts.

Even the dark-skinned (and eyed) leading men with the "Latin look" are stepping out of their character and trying to appear as if they were born some where between Times Square and the Golden Gate.

In short, the vaseline-haired exponents of virtue are doing a "fade out." Patent leather hair will be conspicuous by its absence on the screen next fall. The hair will, indeed, be worn slightly ruffled. Long cigarette-holders and freshly waxed mustaches will be taboo.

**The Freak Types**  
Producers are getting away from freak types in leading men and as seeking, not the collar models, but plain-looking fellows who might pass for your next-door neighbor—and who you'd be glad to have for one.

The movie heroines who have to snuggle up to leading men through several hundred feet of film seem to like the change, too, if expressions of opinion gained from some of cinema's fairest can be taken as typical.

"I'm glad the American type of hero is coming back to his own," says Colleen Moore. "The men who played opposite me have never been the 'sheik' type. Give me John Barrymore, Lloyd Hughes, Frank Mayo or others of their ilk every time."

Helene Chadwick chimes in with "The boys with the olive skin are fine in their place, but their place is not the characterization of the average American youth. See America first is my slogan, and that applies to leading men as well as the Grand Canyon."

So, flappers, take note! If you worship at the shrine of the movie sheik, rush to the theatre now and get your last few looks. For soon, according to the opinion in many

**Hollywood Wants Brains**  
The screen needs new brains, not new faces. This is the contention of Harry Rapf, associate executive of Metro-Goldwyn-Mayer studios, and the accredited discoverer of some of Filmland's most promising directors and scenarists.

"The clamor for 'new faces' on the screen is just a habit," Rapf declares. "The real need of the screen is for new brains. Pictures are made over and over again, with the same plots. The same scenario writers do the scripts on them. With many of them, their chief recommendation is not 'so many good pictures' but 'eight years' experience as a director' or 'so many pictures made.'"

"I was searching for new brains when I engaged Monta Bell to direct 'Broadway After Dark.' It was his first attempt. The completed picture is an excellent example of my point.

"Charlie Chaplin had never directed a feature picture before he made 'A Woman of Paris.' As a result, the picture was voted the most intelligent and original picture in many years. The reason is simply that he combined originality, new ideas and new methods of treatment, with his ability and intelligence."

**Jackie to the Bowery**  
For the first time in his brilliant career, Jackie Coogan is to work in New York. The little star will go east for certain scenes in his next picture, "The Rag Man," which requires a Bowery atmosphere.

Late in August, Jackie will quit his picture work for a time and prepare to sail the first week in September "in command" of a relief ship filled with food and clothing for orphans of the Near East.

**Leading Man Tame**  
Eleanor Boardman, playing the leading feminine role in "The Silent Accuser," was asked by an admirer how she liked her leading man in the picture.

"Just fine," Miss Boardman replied. "So far he hasn't bitten me once."

Then explained to the astonished fan that she had reference to "Peter the Great," a giant police dog that has one of the leading parts in the picture.

**Legend of St. Ursula**  
The legend of "Ursula" varied with different historians. According to the generally accepted legend, Ursula, the daughter of a king or prince of Britain, while on a pilgrimage with 11,000 maidens was attacked at Cologne, Germany, and put to death with all her followers by a horde of Huns.

## Triangular Wheels

The cars that travel the "rocky road to Dublin" would have a much rougher time of it if their wheels were like those that the Mongolian peasant uses on his ox cart. The two wheels, says Mr. A. S. Kent in "Old Tartar Trails," are unprotected by iron tires, and therefore with constant use over stony roads they soon lose their roundness and become first octagonal, then hexagonal and then pentagonal. At that point the Mongol begins to think that he ought to have new wheels; but before his caravan has reached a place where he can find a Chinese to do the work the wheels have passed the rectangular stage and have become triangular, and the vehicle will go no farther.

## China's Great Wall

This historic wall, extending for a distance of more than 1,700 miles across the northern boundary of the Chinese empire, was built by the Emperor Chi-lang-ti about 200 B. C. It was built to protect his dominions against the incursions of the Tartars, Kalmucks and other northern tribes, but proved utterly useless. It was from 25 to 30 feet high and 20 feet thick at the base, but tapered to a thickness of 15 feet at the top. It was surmounted by towers 35 to 40 feet in height, at intervals of 200 or 300 yards. The "Great Wall" is said to have required ten years to build, and to have caused the death of tens of thousands of workmen.

## Monkeys With Smallpox?

Explorers of the Brazilian wilds have reported finding monkeys showing clear traces of having suffered from smallpox, says a message from Rio de Janeiro. George Clarke Bleyer, an expert on life in the Brazilian forests, points out that there is no good reason why wandering animals and insects should not carry smallpox germs from human victims to their simian cousins.

THIS HALF OF SIAMISE  
TWIN, SEPARATED BY  
OPERATION, STILL LIVES

For the first time in Medical History it is said, physicians were able to separate Siamese twins. This other half of the twin is still alive and despite an opening four inches across left in the abdomen by the operation, is expected to grow up a healthy and normal man. The opening will be closed by means of a plastic surgery operation. This unusual operation was performed by Dr. Philip Mininberg, head of the Borough Park Maternity Hospital in Brooklyn, N. Y. The name of the mother has been withheld.

BOUQUET

Made from fresh vegetables. Gives rich flavor, color and taste to all home cooking.

## Onion Soup

1/2 tablespoon Kitchen Bouquet; 5 large onions; 1 tablespoon finely minced carrot; 3 tablespoons butter; 5 tablespoons flour; 3/4 pint boiling water; salt and pepper to taste; 3 bouillon cubes; 1/2 cup thin cream. Peel and parboil onions for 3 minutes, drain and chop fine, place in saucepan with carrot and butter and simmer 5 minutes. Add flour, stir and add boiling water, salt and pepper and cook slowly a half hour. Strain, add bouillon cubes and stir until dissolved. Add Kitchen Bouquet and cream. Place several pieces toast in tureen, pour over soup and serve at once.

## Mock Terrapin Soup

Boil 1 1/2 pounds of calf's liver in salt water for half an hour; add small herbs; 6 grains of pepper; one teaspoonful cloves; a few slices of onion, carrot, etc. When the vegetables are done, take them out and mash by putting them through a colander. Make a Spanish sauce by frying bacon; put into the fat a little slice of onion, 6 peppers, two sprigs celery, one-half cup tomato and cook brown. Make a paste of one teaspoonful of salad oil, a yolk of hard boiled egg, dust of cayenne pepper, make into small balls; put these into Spanish sauce, then put the sauce into the soup. When they come to the top, skim them out. Add 1 teaspoonful Kitchen Bouquet. Put in the tureen a slice of lemon, and pour in the soup, then cut the calf's liver into small bits and add it.

## Savory Chowder

1 teaspoonful Kitchen Bouquet; 1 qt. diced raw potatoes; 3/4 lb. chipped beef; 4 tablespoons butter; 1 cupful corn; 1 medium-sized onion, chopped fine; a small piece of red pepper; 1 1/2 cupfuls hot milk; 2 cupfuls hot water. Put butter, onion, meat and some of the potatoes in the saucepan and fry golden brown, then add hot water and the rest of the potatoes and pepper. Stew slowly till done, about 1 hour. If one uses green corn, score down the rows of kernels and scrape out the inside. Cook this in a little water separately, being careful not to scorch it. When the other mixture is done, add the hot milk, corn, Kitchen Bouquet and salt to taste. Let boil up once and serve hot with crackers.

THIS SEEMS TO BE THE DEMAND  
NOW IN THE  
MOVIES

THE MOVIE SHEIK, OVERDONE,  
IS REPORTED  
DEAD

(By United Press)  
Hollywood, July 25.—Speak a few kind words in memory of the dear departed—the movie sheik is dead! At least such is the declaration of those close in touch with the evolutionary activities in studio-land—who have an ear to the ground, or the radio, or whatever other sources of film players' gossip there are available.

Without the aid of stacomb, tanned skin or burning brown eyes, the plain type of American manhood will prevail in the fall styles of movie heroes.

The slick-haired, foreign-looking heroes are in the descendant, many critics believe. The demand among Hollywood producers picturizing fall and winter movie plots is for the plain type of American. The Conway Tearles, the Thomas Meighans, the Pat O'Malleys and the Milton Sills are the boys now signing contracts for the big parts.

Even the dark-skinned (and eyed) leading men with the "Latin look" are stepping out of their character and trying to appear as if they were born some where between Times Square and the Golden Gate.

In short, the vaseline-haired exponents of virtue are doing a "fade out." Patent leather hair will be conspicuous by its absence on the screen next fall. The hair will, indeed, be worn slightly ruffled. Long cigarette holders and freshly waxed mustaches will be taboo.

**The Freak Types**  
Producers are getting away from freak types in leading men and as seeking, not the collar models, but plain-looking fellows who might pass for your next-door neighbor—and who you'd be glad to have for one.

The movie heroines who have to snuggle up to leading men through several hundred feet of film seem to like the change, too, if expressions of opinion gained from some of cinema's fairest can be taken as typical. "I'm glad the American type of hero is coming back to his own," says Colleen Moore. "The men who played opposite me have never been the 'sheik' type. Give me John Barrymore, Lloyd Hughes, Frank Mayo or others of their ilk every time."

Helene Chadwick chimes in with "The boys with the olive skin are fine in their place, but their place is not the characterization of the average American youth. See America first is my slogan, and that applies to leading men as well as the Grand Canyon."

So, flappers, take note! If you worship at the shrine of the movie sheik, rush to the theatre now and get your last few looks. For soon, according to the opinion in many

Hollywood quarters, he will be buried alongside the movie vamp, who once commanded the spotlight but has long since been toned down in character or pushed out of the picture altogether.

**Hollywood Wants Brains**  
The screen needs new brains, not new faces. This is the contention of Harry Rapf, associate executive of Metro-Goldwyn-Mayer studios, and the accredited discoverer of some of Filmland's most promising directors and scenarists.

"The clamor for 'new faces' on the screen is just a habit," Rapf declares. "The real need of the screen is for new brains. Pictures are made over and over again, with the same plots. The same scenario writers do the scripts on them. With many of them, their chief recommendation is not 'so many good pictures' but 'eight years' experience as a director' or 'so many pictures made.'"

"I was searching for new brains when I engaged Monta Bell to direct 'Broadway After Dark.' It was his first attempt. The completed picture is an excellent example of my point."

"Charlie Chaplin had never directed a feature picture before he made 'A Woman of Paris.' As a result, the picture was voted the most intelligent and original picture in many years. The reason is simply that he combined originality, new ideas and new methods of treatment, with his ability and intelligence."

**Jackie to the Bowery**  
For the first time in his brilliant career, Jackie Coogan is to work in New York. The little star will go east for certain scenes in his next picture, "The Rag Man," which requires a Bowery atmosphere.

Late in August, Jackie will quit his picture work for a time and prepare to sail the first week in September "in command" of a relief ship filled with food and clothing for orphans of the Near East.

**Leading Man Tame**  
Eleanor Boardman, playing the leading feminine role in "The Silent Accuser," was asked by an admirer how she liked her leading man in the picture.

"Just fine," Miss Boardman replied. "So far he hasn't bitten me once."

Then explained to the astonished fan that she had reference to "Peter the Great," a giant police dog that has one of the leading parts in the picture.

**Legend of St. Ursula**  
The legend of "Ursula" varied with different historians. According to the generally accepted legend, Ursula, the daughter of a king or prince of Britain, while on a pilgrimage with 11,000 maidens was attacked at Cologne, Germany, and put to death with all her followers by a horde of Huns.

## 105 ST. PAULITES IN NEW WHO'S WHO

### FORTY-TWO MINNESOTA CITIES AND TOWNS ARE REPRESENTED

St. Paul, July 25.—Forty-two Minnesota towns and cities are the homes of personages sufficiently famous to get their biographies in the new "Who's Who."

The volume for 1924-25 was issued today. St. Paul has 105 distinguished residents. Minneapolis has more than 200. Most of the places represented have only from one to five. Cities with more are Duluth, Northfield and Rochester.

Lawyers make the largest bid for fame, especially if they are taking part in politics. Next come educators. The heads of all state educational institutions, and many of the leading professors, are listed. Doctors, ministers and writers are next in line. F. Scott Fitzgerald, the young St. Paul author, is written up for the first time and the political fact revealed that he is a Socialist.

Occupations of others among the less than 1,000 men and women of the state whose names appear in the work are engineers, lecturers, lumbermen, merchants, manufacturers, exporters, diplomats, railroad executives, capitalists, pathologists, economists, anatomists, mathematicians, astronomers, chemists, oculists, physicists, librarians, millers, musicians, pediatricians, opticians, dermatologists, soldiers, veterinarians, botanists, naturalists, dairymen, architects, cartoonists, editors, dentists, and public officials.

The preface of the book contains a resume of the growth of "Who's Who" since the first volume was published in 1899. The number of biographies has increased from 8,602 to 25,357.

Other features are educational statistics, occupations and environments of American notables, women in America, birth and residence statistics, the geographical index and biographical section.

### BOY SLAYERS BID FOR LIFE IMPRISONMENT

(Continued from Page 1)

### LOEB DIRECTED HUNT FOR SLAYERS

Criminal Court, Chicago, July 25.—Richard Loeb brazenly directed a hunt for the kidnapers and slayers of Robert Franks two days after the killing. Howard Mayer, Chicago reporter, testified today at the judicial hearing of Leopold and Loeb for the Franks murder.

Mayer said that he was directed by his paper to pick up any lead on the case. Mayer said he was walking on the University of Chicago campus when he met Loeb. The conversation turned to the murder.

"Loeb said that he did not think the kidnapers would meet Jacob Franks to collect the \$10,000 ransom demanded in the letter. He said he hardly thought the kidnapers would be at the drug store where he had been directed for further instructions. He suggested that I make a round of several Southside drug stores in the hope I might find the one to which Jacob Franks was directed.

"With two other reporters I started a search of several drug stores. Loeb went with us in an automobile. It was raining.

"After several attempts we found a drug store in which a negro porter told us the afternoon previous two calls had come for a 'Mr. Franks.' The porter told us that he told the party calling there was no Mr. Franks there, and the conversation ended.

"We telephoned our newspapers to give them the story—we did this from the drug store at which the murdered boy's father was to have come for instructions in turning over the \$10,000 ransom.

"As we left the drug store, Loeb said: 'See, that's what comes from reading detective stories. I thought you would find the drug store if you made a search.'

"Then we drove to the Franks home and told Franks we had found the drug store. Loeb went with us while we talked to Mr. Franks.

"After that we bought a paper to see our story in print. When we got it Loeb asked to keep it and got out of the car."

"Alvin Goldstein, another reporter, former fellow student of Loeb, testified that he met Loeb in front of the Franks' home on the evening of May 22.

"Loeb asked what it was all about, referring to the excitement, and I told him of the murder.

"I saw him again next day with a group of people. They had several newspapers dealing with the murder.

One of the boys asked Loeb whether he had known Robert Franks and what sort of fellow he was. Loeb replied that he knew him and also said he was the kind of a kid that anybody would kidnap and kill."

Goldstein said Loeb had used certain "expletives" and at the command of the prosecution the witness enunciated them.

James Mulroy, the third member of the reporters' party, corroborated the testimony of previous witnesses but added in detail:

"As soon as we knew we had found the right place," Mulroy said, "I went to a telephone booth and attempted to trace the call. When he saw me, Loeb came up and said, 'Don't use my name, will you?'"

"I told him I wouldn't, but anyway I had no luck in getting the call traced. I asked Loeb what he thought of the case. I asked him if he didn't think that the case was originally a kidnaping case but that the kidnapers had become frightened and murdered Bobby.

"Loeb replied, 'Well, if I was going to murder anyone I would murder a cocky little—like Bobby Franks!'"

Jacob Franks was out of the courtroom when the boys were questioned and did not hear the epithets describing Bobby.

Goldstein was recalled to the stand and asked whether he had any other conversations with young Loeb.

Goldstein said on one occasion in front of the Franks' home he met Leopold in the front yard. Several other boys were standing around, Goldman said.

"We talked about the Franks' case, talking over several theories," the newspaper reporter testified.

"Young Leopold was asked for his opinion and this is what he said:

"'Fellows, this is certainly a horrible crime. If they ever catch the fellows who did it they certainly ought to be strung up.'"

A recess then was taken.

# This little dollar goes to market

Every year every family of your acquaintance spends about 70 per cent of its income just for living, exclusive of rent—so economic experts tell us. Think what this means—seven dollars out of every ten invested in food, clothing, household utilities and all the multitude of things that keep a family comfortable and happy.

It's a big job to spend so much money wisely and well. It requires careful business methods to get the best possible returns from each dollar that leaves the family purse.

The clever woman goes for help to the advertisements of her daily paper. There she finds a directory of buying and selling. She learns about the offerings of merchants and manufacturers. She compares values. She weighs quality and price. She takes this opportunity of judging and selecting almost everything she needs to feed, clothe, amuse, instruct and generally bring up her family.

## 105 ST. PAULITES IN NEW WHO'S WHO

### FORTY-TWO MINNESOTA CITIES AND TOWNS ARE REPRESENTED

St. Paul, July 25.—Forty-two Minnesota towns and cities are the homes of personages sufficiently famous to get their biographies in the new 'Who's Who.'

The volume for 1924-25 was issued today. St. Paul has 105 distinguished residents. Minneapolis has more than 200. Most of the places represented have only from one to five. Cities with more are Duluth, Northfield and Rochester.

Lawyers make the largest bid for fame, especially if they are taking part in politics. Next come educators. The heads of all state educational institutions, and many of the leading professors, are listed. Doctors, ministers and writers are next in line. F. Scott Fitzgerald, the young St. Paul author, is written up for the first time and the political fact revealed that he is a Socialist.

Occupations of others among the less than 1,000 men and women of the state whose names appear in the work are engineers, lecturers, lumbermen, merchants, manufacturers, exporters, diplomats, railroad executives, capitalists, pathologists, economists, anatomists, mathematicians, astronomers, chemists, oculists, physicists, librarians, millers, musicians, pediatricians, opticians, dermatologists, soldiers, veterinarians, botanists, naturalists, dairymen, architects, cartoonists, editors, dentists, and public officials.

### REQUIREMENTS

Perused Joyland Vamps Ad  
in Dispatch

### MUSICAL DIRECTOR EXPLAINS

Pleasing Personality First Desired,  
Charm and Ability to  
Dance

What are the requirements for becoming a chorus girl? This is the query in the minds of a number of Brainerd young ladies who noticed the advertisement in Wednesday evening's Dispatch, in which the Joyland Vamps Company asked for several inexperienced amateurs, to join the theatrical troupe that closed a successful two-day engagement at the New Park.

Jean C. Hoffman, musical director of the company, has a pleasant surprise in store for those who were reticent about making application, feeling perhaps that they lack the necessary qualifications for becoming eligible to a pony ballet. The director gives the following information on the subject:

The most exacting qualification, is not as many suppose, a figure second only to Venus and a face like Diana. The first thing that is considered of a young woman who aspires to the chorus is whether or not she has a pleasing personality. If she has that charm, says Mr. Hoffman, it gets across with an audience better than beauty or a slightly figure.

Next in importance to a charming personality is the ability of the applicant on the ballroom floor. If she is graceful in dancing the popular dances, such as the foxtrot and waltz it is only a matter of a few weeks training to learn the stage steps, says Mrs. Hoffman. Ballroom dancing gives poise and carriage and a sense of time that are very essential to successful dancing upon the stage.

After personality and rhythm come the qualifications of figure and beauty, according to the director.

The chorus girls are not required to have perfect dimensions of body and limb according to the Annette Kellerman code, and grease paint and make-up will produce all the beauty that is required by the most exacting.

The Joyland Vamps will conclude the week at Crosby, where Mr. Hoffman will be glad to confer with any who have inclinations toward a stage career, and would like to become a part of his company's chorus.

### U. S. Fire Loss Highest

St. Paul, July 25.—"The fire loss of the United States is seven times that of the next country, on a per capita basis, and much more of a fat basis," stated George B. Muldau in St. Paul.

Mr. Muldau is general agent of the Underwriters Laboratories, Chicago, and passed through St. Paul. He will return here, he said, to conduct a survey for the better protection of the city when the Fridley conduit is completed in September.

"The per capita loss in America last year was \$5, while France, the next highest country, had a loss of 75 cents. America's loss in 1923 was \$508,000,000 or \$13,000,000 less than 1922.

### IN CAR COLLISION

Car of Ray Cleary, Buick Roadster,  
and Ford of H. C. Person in Ac-  
cident Near Pine River

### STORIES OF BOTH GIVEN

Person's Car Demolished and He  
Was Unconscious For  
Three Hours

Ray Cleary, of Brainerd, traveling salesman for the Brainerd Grocery Co., and H. C. Person, a dairyman residing near Pine River, collided on Trunk Highway No. 19, three miles south of that village, about 4:30 Wednesday afternoon. Mr. Person was knocked unconscious in which state he remained for three hours. His car was demolished. Mr. Cleary's car sustained only minor damages, it is said.

The following is an account of the accident as taken from the Pine River Sentinel-Blaze:

A car accident occurred on Highway No. 19 Wednesday afternoon about 4:30; when a Ford car driven by H. C. Person was run into by a Buick roadster driven by Ray Cleary of Brainerd.

Mr. Person was traveling toward home and as the travel on the road is heavy had been passed by several other cars just before coming to the road leading into his farm. Mr. Cleary was coming from behind and traveling at a good rate of speed and as Mr. Person swung to the right preparatory to making a square turn to the left, Mr. Cleary thought he was turning out to let him pass, and sped up to get by but Mr. Person made the turn to the left and was hit broadside.

The Ford was pushed a distance of about eight feet, landing nose down in a ditch, the front wheels smashed and from all appearances the wheels of the large car passed over the front of the smaller one and then made a jump of several feet before landing, being stopped on the field across the ditch. Mr. Person was knocked out completely and brought to the Holman hospital, regaining consciousness an hour and a half afterwards. Examination found bruises about the head and shoulders but no bones broken and he was about the streets again Thursday.

Mr. Cleary and companion did all they could to see that Mr. Person received proper attention and blame for the accident is shared by both drivers, both admitting they were at fault.

Mr. Person was in Brainerd Friday to see about adjusting his car loss. In an interview with the Dispatch he stated that while he still felt a little stiff, he has no other ill effects from the accident. The car he was driving was a Ford touring, remodeled into a truck, which he used to deliver milk and cream to his patrons in Pine River. He stated that the Pine River paper is in error as to the length of time that he was unconscious. He did not come to until after seven o'clock that evening, he says.

Mr. Person is loud in his praise for the manner in which Mr. Cleary looked after his interests. Not being satisfied with the medical attention that the patient was receiving, Ray had a physician go to Pine River from Brainerd, and do everything possible for the injured man's comfort.

Mr. Cleary made every effort to stop his car, a Buick roadster, before the collision, said Mr. Person, the tracks showing that the wheels skidded about ten feet before the Ford was struck, but the cars were too close together as they traveled on the road to avoid the collision when Mr. Person turned in toward his home.

## DAVID EBINGER, JR. HAS PASSED AWAY

Leakage of the Heart Yesterday  
Caused Demise of the  
Young Man

LEAVES WIFE, TWO CHILDREN  
He Operated Farm Near Lum Park,  
East of City  
Limits

David Ebinger, Jr., passed away at a local hospital yesterday afternoon at 3:30 o'clock, death being caused by leakage of the heart.

Mr. Ebinger was born in Brainerd, January 3rd, 1893. He attended the city schools and for the past eighteen years has been a member of the municipal band, playing the bass horn.

He was married on September 4th, 1915 to Miss Minnie Swanson of this city. To this union were born two children, Dorothy, aged five years, and Dale, eight months old.

In addition to his wife and children, deceased is survived by his father and mother, Mr. and Mrs. David Ebinger, Sr., five sisters and five brothers, being Marguerite, Ida and Mrs. Fritz Jaeger of Brainerd, Mrs. Laurence Halladay of Livingston, Mont., and Mrs. Alfred J. Munn of Minneapolis, Howard, William and Edward, of Brainerd, George of Bemidji and Henry of Sacramento, California.

Mr. Ebinger operated a farm near Lum park, east of Brainerd. He was sick a part of the winter, but improved this spring. He was taken to the hospital only last Saturday.

The funeral will be held on Saturday afternoon at three o'clock from the Norwegian-Danish Lutheran church, Rev. O. L. Bolstad officiating. The remains may be viewed by friends at the Whitney chapel until two o'clock on the afternoon of the funeral. Interment will be made in Evergreen cemetery.

## LEGION AUXILIARY ELECTS DELEGATES

At a recent meeting of the ladies auxiliary to the American Legion held at the home of Mrs. W. S. Orne, delegates were elected to attend the state convention to be held in St. Cloud August 4th, 5th and 6th.

Mrs. Clyde E. Parker and Mrs. W. C. Mannis were chosen as delegates, with Mrs. Amos Maghan and Mrs. C. A. Stadlbauer as alternates.

The state convention of the American Legion will also be held in St. Cloud on the same dates, but the Brainerd post has not as yet selected its delegates. This will be done at the regular meeting of the post on Monday night.

It is said that Mr. Johnson with his son was enjoying a vacation at Lake Bertha. The coroner's verdict was to the effect that death was caused by acute heart trouble. Deceased was 83 years of age, and lived retired at Wilmar.

## CHORUS GIRL REQUIREMENTS

Brainerd Girls Wonder as They  
Perused Joyland Vamps Ad  
in Dispatch

## MUSICAL DIRECTOR EXPLAINS

Pleasing Personality First Desired,  
Charm and Ability to  
Dance

What are the requirements for becoming a chorus girl? This is the query in the minds of a number of Brainerd young ladies who noticed the advertisement in Wednesday evening's Dispatch, in which the Joyland Vamps Company asked for several inexperienced amateurs, to join the theatrical troupe that closed a successful two-day engagement at the New Park.

Jean C. Hoffman, musical director of the company, has a pleasant surprise in store for those who were reticent about making application, feeling perhaps that they lack the necessary qualifications for becoming eligible to a pony ballet. The director gives the following information on the subject:

The most exacting qualification, is not as many suppose, a figure second only to Venus and a face like Diana. The first thing that is considered of a young woman who aspires to the chorus is whether or not she has a pleasing personality. If she has that charm, says Mr. Hoffman, it gets across with an audience better than beauty or a slightly figure.

Next in importance to a charming personality is the ability of the applicant on the ballroom floor. If she is graceful in dancing the popular dances, such as the foxtrot and waltz it is only a matter of a few weeks training to learn the stage steps, says Mrs. Hoffman. Ballroom dancing gives poise and carriage and a sense of time that are very essential to successful dancing upon the stage.

After personality and rhythm come the qualifications of figure and beauty, according to the director. The chorus girls are not required to have perfect dimensions of body and limb according to the Annette Kellerman code, and grease paint and make-up will produce all the beauty that is required by the most exacting.

The Joyland Vamps will conclude the week at Crosby, where Mr. Hoffman will be glad to confer with any who have inclinations toward a stage career, and would like to become a part of his company's chorus.

## U. S. Fire Loss Highest

St. Paul, July 25.—"The fire loss of the United States is seven times that of the next country, on a per capita basis, and much more of a fat basis," stated George B. Muldau in St. Paul.

Mr. Muldau is general agent of the Underwriters Laboratories, Chicago, and passed through St. Paul. He will return here, he said, to conduct a survey for the better protection of the city when the Friday conduit is completed in September.

"The per capita loss in America last year was \$5, while France, the next highest country, had a loss of 75 cents. America's loss in 1923 was \$508,000,000 or \$13,000,000 less than 1922.

## BRAINERD MAN IN CAR COLLISION

Car of Ray Cleary, Buick Roadster,  
and Ford of H. C. Person in Accident Near Pine River

## STORIES OF BOTH GIVEN

Person's Car Demolished and He  
Was Unconscious For  
Three Hours

Ray Cleary, of Brainerd, traveling salesman for the Brainerd Grocery Co., and H. C. Person, a dairyman residing near Pine River, collided on Trunk Highway No. 19, three miles south of that village, about 4:30 Wednesday afternoon. Mr. Person was knocked unconscious in which state he remained for three hours. His car was demolished. Mr. Cleary's car sustained only minor damages, it is said.

The following is an account of the accident as taken from the Pine River Sentinel-Blaze:

A car accident occurred on Highway No. 19 Wednesday afternoon about 4:30; when a Ford car driven by H. C. Person was run into by a Buick roadster driven by Ray Cleary of Brainerd.

Mr. Person was traveling toward home and as the travel on the road is heavy had been passed by several other cars just before coming to the road leading into his farm. Mr. Cleary was coming from behind and traveling at a good rate of speed and as Mr. Person swung to the right preparatory to making a square turn to the left, Mr. Cleary thought he was turning out to let him pass, and sped up to get by but Mr. Person made the turn to the left and was hit broadside.

The Ford was pushed a distance of about eight feet, landing nose down in a ditch, the front wheels smashed and from all appearances the wheels of the large car passed over the front of the smaller one and then made a jump of several feet before landing, being stopped on the field across the ditch. Mr. Person was knocked out completely and brought to the Holman hospital, regaining consciousness an hour and a half afterwards. Examination found bruises about the head and shoulders but no bones broken and he was about the streets again Thursday.

Mr. Cleary and companion did all they could to see that Mr. Person received proper attention and blame for the accident is shared by both drivers, both admitting they were at fault.

Mr. Person was in Brainerd Friday to see about adjusting his car loss. In an interview with the Dispatch he stated that while he still felt a little stiff, he has no other ill effects from the accident. The car he was driving was a Ford touring, remodeled into a truck, which he used to deliver milk and cream to his patrons in Pine River. He stated that the Pine River paper is in error as to the length of time that he was unconscious. He did not come to until after seven o'clock that evening, he says.

Mr. Person is loud in his praise for the manner in which Mr. Cleary looked after his interests. Not being satisfied with the medical attention that the patient was receiving, Ray had a physician go to Pine River from Brainerd, and do everything possible for the injured man's comfort.

Mr. Cleary made every effort to stop his car, a Buick roadster, before the collision, said Mr. Person, the tracks showing that the wheels skidded about ten feet before the Ford was struck, but the cars were too close together as they traveled on the road to avoid the collision when Mr. Person turned in toward his home.

FRENCH WAR HORSE LASTED 14 ROUNDS

OUTSTANDING OLYMPIC FIGURES OF 1924 Y. M. C. A. WINS VI.—PAAVO NURMI

By FRANK GETTY (United Press Staff Correspondent) New York, July 25.—Through the welter of dazzling performances, crashing records, intense heat and bitter rivalries that characterized the Olympic Games of 1924, one dominant figure stood out above all the others—cool, unassuming, winner of four first places, a victor in every race in which he started.

Paavo Nurmi, diminutive distance runner from the northland, is the greatest track athlete of which we have any record, when endurance, adaptability and overwhelming superiority in his many events are taken into consideration.

Nurmi ran everything from a mile to six and a half miles, and was never beaten, never seriously threatened. He finished first in the 1,500 metres, the 3,000 metres team race, the 5,000 metres and the 10,000 metres cross-country—a record for all modern Olympiads. He won the 1,500 metres and the 5,000 metres runs within an hour and a half one hot afternoon.

The Little Finn trains on a diet of black bread and dried fish. He drinks little water—not over two quarts in all during the week when he was breaking records and running away with most of the first places.

How much better Nurmi is than his fellow countryman, Willie Ritola, is demonstrated by the fact that he took on the American-trained Finn at all distances and beat him every time.

Strangely enough, when there was glory and plenty to go around, there was bad blood between the two Finnish stars. Ritola won the 10,000 metres run, the 3,000 metres steeplechase, and finished second in three other races, scoring a total of 35 points for his country. But he wanted to beat Nurmi. He picked the 5,000 metres run to do it in. Nurmi had just won the 1,500 metres an hour before, and presumably should have been due for a long rest.

When they went to the mark for the 5,000, Ritola set out to make a race of it with Nurmi. The latter could have loafed along and won the race had it not been for his persistent team-mate, who drove him every inch of the way to a close finish in new Olympic record time. At the finish, satisfied that he couldn't beat Nurmi, Ritola held out his hand after the American fashion, but the victor turned his back.

Nurmi ran for most of the distance looking over his shoulder, coaching two of his team-mates, including Ritola, in to finish second and third behind him.

FROM THE SEALS BY 1 TO 0 SCORE

GAME ONLY EQUALLED BY HISTORIC ONE OF THIRTEEN YEARS AGO

WHEN LES BUSH BEAT DOMINICK BY THE SAME SCORE

Y. M. C. A., 1; Seals, 0.

The score indicates the fury of the battle. Fans of the old school recalled that day thirteen years ago when Les Bush beat Al Dominick of Little Falls, 1-0, and settled the river rivalry for a year. That game had nothing on last night's battle to the death between Zakariassen and Peterson. All the thrills were there. Men on bases at critical times, pitchers tightening in the pinches, feature catches by the fielders, wonderful support on both sides, and finally, when the sky was so clouded it was but a matter of seconds when the game would have to be called, the one needed run put over, and the opposition held after getting two on with one out. All this and more. Those unfortunates who missed seeing the game will have merely the thrill of a listener, as the witnesses play the game over and again.

To make mention of any particular plays would seem to discriminate. Every man was on his toes and giving his best. The feature of the game, however, was the pitching by both Zakariassen and Peterson. A regular pitchers' duel it was, with honors about even. Pete allowed two hits, passed one, and struck out eight. Zak gave four hits, walked four and fanned ten. Zak struck out five men in a row at one stage of the game, when he fanned Bowerman for the last out in the second. Welsh, Engbretson and Dillan in the third, and Peterson for the first out in the fourth. Besides pitching a brilliant game, Peterson brought in the lone run of the game, when he doubled and came home on Ringer's single.

Some may doubt the justice of the statement, but it is the writer's opinion that Peterson is the class of the ball players of the league, for all around playing, for hitting ability and for baseball brains.

Others deserving of mention are Engbretson for his pretty falling catch of Gaskill's foul fly in the first; Molstad for a fine throw to second to out, by Peterson, 8; by Zakariassen, 10. Umpires, Smraker and Norman.

CARPENTIER LOSES BATTLE TO TUNNEY

FRENCHMAN WAS KNOCKED DOWN FOUR TIMES IN THE TENTH ROUND

BOTH BOXERS TAKE PUNISHMENT IN RING BATTLE

Tunney won his fight with Carpentier in New York last night. Both boxers took punishment and 14 full rounds were fought. When the bell rang for the 15th round, Carpentier failed to respond and so Tunney was declared victor by a technical knock-out in the 15th round of the scheduled 15 round bout.

Carpentier's men claimed a blow received in the 14th round was foul. It had sent Carp to the mat in great pain. The referee refused to call it foul and ordered Carp to continue fighting.

As the bell sounded in the 15th round, Carp came out, but dropped to the floor and was unable to continue the fight.

Carpentier was knocked down four times in the tenth round, recuperated and came back strong in the 11th. Tunney lead with his left in the next two rounds, and gave much punishment.

As the 14th opened, Carp rushed Tunney to the ropes. Tunney countered and his left is said to have landed near Carp's belt, and the Frenchman sank to his knees.

The bell rang, his trainers carried him out of the ring. He could not sit up on account of the pain. Desamps claimed a foul. The gong sounded for the last round. Carpentier staggered out and then collapsed in the ring center. Not a blow was struck in the final round.

# FRENCH WAR HORSE LASTED 14 ROUNDS

## OUTSTANDING OLYMPIC FIGURES OF 1924 Y. M. C. A. WINS VI.—PAAVO NURMI

By FRANK GETTY  
(United Press Staff Correspondent)

New York, July 25.—Through the welter of dazzling performances, crashing records, intense heat and bitter rivalries that characterized the Olympic Games of 1924, one dominant figure stood out above all the others—cool, unassuming, winner of four first places, a victor in every race in which he started.

PaaVo Nurmi, diminutive distance runner from the northland, is the greatest track athlete of which we have any record, when endurance, adaptability and overwhelming superiority in his many events are taken into consideration.

Nurmi ran everything from a mile to six and a half miles, and was never beaten, never seriously threatened. He finished first in the 1,500 metres, the 3,000 metres team race, the 5,000 metres and the 10,000 metres cross-country—a record for all modern Olympiads. He won the 1,500 metres and the 5,000 metres runs within an hour and a half one hot afternoon.

The Little Finn trains on a diet of black bread and dried fish. He drinks little water—not over two quarts in all during the week when he was breaking records and running away with most of the first places.

How much better Nurmi is than his fellow countryman, Willie Ritola, is demonstrated by the fact that he took on the American-trained Finn at all distances and beat him every time.

Strangely enough, when there was glory and plenty to go around, there was bad blood between the two Finnish stars. Ritola won the 10,000 metres run, the 3,000 metres steeplechase, and finished second in three other races, scoring a total of 35 points for his country. But he wanted to beat Nurmi. He picked the 5,000 metres run to do it in. Nurmi had just won the 1,500 metres an hour before, and presumably should have been due for a long rest.

When they went to the mark for the 5,000, Ritola set out to make a race of it with Nurmi. The latter could have loafed along and won the race had it not been for his persistent team-mate, who drove him every inch of the way to a close finish in new Olympic record time. At the finish, satisfied that he couldn't beat Nurmi, Ritola held out his hand after the American fashion, but the victor turned his back.

Nurmi ran for most of the distance looking over his shoulder, coaching two of his team-mates, including Ritola, in to finish second and third behind him.

## FROM THE SEALS BY 1 TO 0 SCORE

GAME ONLY EQUALLED BY HISTORIC ONE OF THIRTEEN YEARS AGO

WHEN LES BUSH BEAT DOMINICK BY THE SAME SCORE

Y. M. C. A., 1; Seals, 0.

The score indicates the fury of the battle. Fans of the old school recalled that day thirteen years ago when Les Bush beat Al Dominick of Little Falls, 1-0, and settled the river rivalry for a year. That game had nothing on last night's battle to the death between Zakariassen and Peterson. All the thrills were there. Men on bases at critical times, pitchers tightening in the pinches, feature catches by the fielders, wonderful support on both sides, and finally, when the sky was so clouded it was but a matter of seconds when the game would have to be called, the one needed run put over, and the opposition held after getting two on with one out. All this and more. Those unfortunates who missed seeing the game will have merely the thrill of a listener, as the witnesses play the game over and again.

To make mention of any particular plays would seem to discriminate. Every man was on his toes and giving his best. The feature of the game, however, was the pitching by both Zakariassen and Peterson. A regular pitchers' duel it was, with honors about even. Pete allowed two hits, passed one, and struck out eight. Zak gave four hits, walked four and fanned ten. Zak struck out five men in a row at one stage of the game, when he fanned Bowerman for the last out in the second. Welsh, Engbretson and Dillan in the third, and Peterson for the first out in the fourth. Besides pitching a brilliant game, Peterson brought in the lone run of the game, when he doubled and came home on Ringer's single. Some may doubt the justice of the statement, but it is the writer's opinion that Peterson is the class of the ball players of the league, for all around playing, for hitting ability and for baseball brains.

Others deserving of mention are Engbretson for his pretty falling catch of Gaskill's foul fly in the first; Molstad for a fine throw to second to catch Hanson, after he had dropped his long fly; and Lepinski for the best game he has played this year, making two hits (all the Seals got off Peterson) and backing up Zakariassen in his usual wonderful style. Credit also goes to the umpires, Andy Smraker behind the plate, and Norman on bases.

Detailed play by innings follows:

**First Inning**  
Y. M. C. A.—Welsh struck out; Engbretson singled to center; Dillan hit to Zakariassen, who muffed the ball, and both runners were safe; Peterson hit into a double play, Hegstad to Anderson to Hanson. One hit, one error.

Seals—Anderson flied out to Ringer; Engbretson made a fine catch of Gaskill's foul fly, hanging onto the ball as he stumbled into the ditch after the catch; Hegstad out, Peterson to Bowerman.

**Second Inning**  
Y. M. C. A.—Ringer fouled out to Lepinski; Hanson struck out; Molstad walked; Larson walked; Bowerman struck out.

Seals—Hanson out at second, after Molstad muffed his fly to left and recovered the ball in time to throw to

the bag. Stallman out, Welsh to Bowerman; O'Brien struck out. One error.

**Third Inning**  
Y. M. C. A.—Welsh fanned, Engbretson struck out; Dillan whiffed. Seals—Mellquist took three strikes, Lepinski singled through third, Zakariassen struck out, Anderson out at first.

**Fourth Inning**  
Y. M. C. A.—Peterson struck out; Ringer singled; Hanson walked; Molstad forced Hanson at second; Ringer advancing to third; Larson struck out. One hit.

Seals—Gaskill out, Dillan to Bowerman; Hegstad flied out to Dillan; Hanson out, Dillan to Bowerman.

**Fifth Inning**  
Y. M. C. A.—Bowerman struck out, Welsh struck out; Engbretson flied out to Hegstad.

Seals—Stallman, O'Brien, Mellquist went out by the strike-out way.

**Sixth Inning**  
Y. M. C. A.—Lepinski made a brilliant catch of Dillan's foul fly; Peterson doubled to left, sliding into the bag on a close play. Ringer took two strikes, then singled through short stop, and Peterson dashed for home, sliding into the plate for the only score of the game. Hanson out at first, Ringer advancing to second. Molstad walked; Larson out, Zakariassen to Hanson. Two hits, one run.

Seals—Lepinski doubled to left, Zakariassen walked. Anderson looked at three strikes; Gaskill fanned; Hegstad flied out to Dillan for the last out. One hit.

## CLEAN SPORTS DEMAND MADE BY CIVIC BODY

NEW YORK CIVIC LEAGUE TAKES EXCEPTION TO FIRPO INCIDENT

DEPORTATION OF "WILD BULL OF THE PAMPAS" ASKED

The New York Civic league has taken exception to the permission accorded Firpo to land after the recent incident heralded in the newspapers and has asked the authorities to deport the "Wild Bull of the Pampas."

The statement addressed the authorities said no distinction should be made between man or woman. If the latter was refused permission to land, it is claimed there was no reason why Firpo should be permitted to enter the United States.
